

W HOLE SAW MACHINE

HSAW 150

Product Profile:

- The Wassertek Model HSAW150 pipe hole cutter is designed to cut holes up to 152mm into steel pipe.
- The HSAW150 has a 5/8" (16mm) capacity drill chuck to accommodate all sizes of hole saws and hole saw arbors.
- An integral motor and gear reduction optimizes performance of large diameter hole saws.
- The two feed handles allows the operator to use the Hole cutting tools from either the left or right side.
