

## **W** DIESEL HYDRO TEST PUMP

**DPUMP120**

**DPUMP250**

### Product Profile:

- For precise and quick compression testing and leak testing on pipe work systems and containers in heating and sanitary installations and in boiler and vessel manufacturing up to 250 Bar.
- The full machine consists of the main machine, high pressure hose packed in carton packing.
- Ideal for hydro test and also can be used as a washer with optional accessories.
- Easy to transport with inbuilt wheels and unique handle.
- Extremely easy to operate and precise measurement.
- Very safe to use in petroleum sites as it uses diesel as an energy source.

### Product Specifications

Model No.	<b>DPUMP120</b>	<b>DPUMP250</b>
Maximum Pressure	120 Bar, 1740.45 psi	250 Bar, 3625.94 psi
Fuel	Diesel	Diesel
Power	3.6 KW, 4.8 HP	7.5 KW, 10 HP
Rotating Speed	3400 RPM	3400 RPM
Flow Rate	15 Ltr/Min	15 Ltr/Min
Outlet Connection	1/2"	1/2 "
Testing Fluid	Water, Oil	Water, Oil
Weight	56 KG	94 KG
Dimensions (MM)	680 * 460 * 450 MM	850 * 640 * 630 MM
