

## Extrusion Welder

- Hot air power: 3400W Motor power: 1300W
- Voltage: 220V Frequency: 50Hz
- Extruding temperature: 200-300°C
- Hot air temperature: 20-600°C
- Welding speed: 500L/min
- Welding rod diameter:  $\Phi$ 3.5-4.5mm
- N.W.: 11.5kg; G.W.:14.5kg
- Insulation grade: Class I

## Extrusion Welder | EWM32

- Hot air power: 3400W Motor power: 1600W
- Voltage: 220V Frequency: 50Hz Double heating
- Extruding temperature: 280-380°C
- Hot air temperature: 20-550°C
- Welding speed: 500L/min
- Welding rod diameter:  $\Phi$ 3.5-4.5mm
- N.W.: 12kg; G.W.:15kg
- Insulation grade: Class I
